

Cheers to the Spirit of Hospitality

EMEA FOODSERVICE COLLECTION | 2021
August update

Cheers to

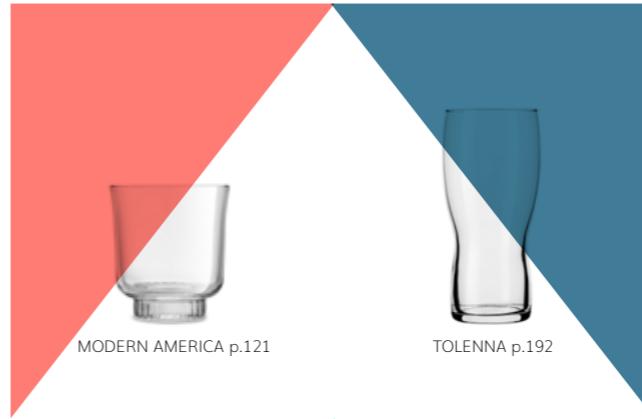

For over 200 years Libbey has been an expert in producing glassware for professionals. We offer a variety of glassware, from functional stackable tumblers to elegant lightweight wine glasses and distinctive showpieces which fit the latest trends. We work closely with the spirited foodservice professionals to ensure our glassware meets their needs. Each new introduction is adapted to the evolution of consumers' behavior and to the constant changes in the market. In this summer update we are introducing several new items and product families, be sure to check our new sturdy stemware range Endura (P 85), the accessible vintage tumblers in the Cheers range (P 136), and the new Skinny Can (P 173).

During our 200 years history we have rarely seen anything similar to the change the COVID-19 pandemic has brought. Our industry has showed to be amongst the most resilient and creative out there innovating to adapt to the difficult situation and serving customers in new ways. We are happy to see that restrictions are easing in most of the markets we serve and look forward to circumstances normalizing in the coming months.

So as we join you on the road to recovery we raise these glasses to all of you and say "Cheers to the Spirit of Hospitality!"

Libbey offers a wide assortment of high-quality, strong glassware backed by equally strong guarantees. Did you know that with our DuraTuff treatment you don't have to compromise on strength? This is highly convenient for stackable glasses, which need to be able to deal with the wear and tear of daily life in all sorts of demanding settings. Check out pages 8 and 9 for more information about Libbey's DuraTuff treatment and guarantees. Libbey offers a variety of glassware, adapted to the evolution of consumers' behavior and to the constant changes in the market.

Royal Leerdam has a rich history spanning over almost 140 years and is known for its exquisite designs and tendency to pay attention to even the smallest of details. Deeply committed to delivering perfect designs that will meet the needs of the hospitality industry, Royal Leerdam's glassware combines elegance with highly functional qualities. Needless to say we are very eager to show you what we have to offer.

THE LIBBEY DIFFERENCE

Most customers have the same question when purchasing glassware: Will it hold up? Leveraging 200 years of glassmaking expertise and innovation, Libbey offers exclusive technology for enhancing glassware performance.

LIBBEY®

This special thermal after-process for "pressed" tumblers and stemware strengthens the upper portion of the glass, the area most vulnerable to breakage. It increases the resistance to thermal and mechanical shock which results in remarkably durable glassware with prolonged service life.

What is the difference between DuraTuffing and tempering? Libbey's exclusive processes were developed not only to reduce breakage and chipping, but to also change HOW a glass breaks - an important safety consideration in foodservice operations. Fully tempered glass is unstable. Inappropriately tempered glassware shatters in an explosive manner. It breaks into smaller jagged pieces that can travel long distances potentially contaminating ice bins or salad bars. The need for product replacement due to breakage and chipping affects your bottom line. Libbey's toughening processes produce glassware that stands up to more servings which means more profits for you.

LIBBEY®

Libbey's precision manufacturing produces a rim with a minimum bead that is more resistant to unsightly chipping without sacrificing its subtle beauty.

LIBBEY®

A rare combination of elegance and affordability to upgrade beverage service with enhanced service life. This glassware features a beadless edge that is cracked-off and then polished to produce a fine, durable edge.

LIBBEY®

A special heating and rapid cooling process strengthens the upper portion of the glass, increasing resistance to thermal and mechanical shock.

LIBBEY®

A laser etch on the inside bottom creates a constant stream of bubbles, enhancing aroma and flavor!

TOUGHSTUFF WE GUARANTEE IT!

FOR OVER 70 YEARS, LIBBEY'S PROVEN COMMITMENT TO QUALITY HAS BEEN BACKED BY OUR WELL-KNOWN GUARANTEES.

● Safedge® Rim Guarantee

If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

✖ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. The beadless edge creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service while still maintaining longer service life. Sheer Rim/D.T.E. tumblers and stemware are guaranteed against chippage of the rim.

SILK ROAD

THE MAGICAL ROUTE

Throughout history, humans have developed international trade routes. None more famous than The Silk Road, a network of routes that for centuries traders used to transport silk and many other goods between China and the Mediterranean.

We selected classic and timeless designs and applied fantastic decorations paying homage to the various Asian cultures. We took patterns and meanings from different aspects of it, and put them in a modern western context. Making them ideal for any table setting with an Eastern-inspired menu, as well as drinks or cocktails with an Asian twist.

NIHO

NIHO

The range consists of 4 beautiful decorated glasses, each with a great and meaningful story. Geisha, which literally means 'person practicing the arts', refers to women who dedicate their lives to traditional Japanese arts, using their talents to entertain distinguished clients at banquets and shows. The Koi is a fish with a rich history in Chinese and Japanese cultures. Legend has it that the koi fish embodies determination, dedication, perseverance and success. The Dragon, possibly the best-known symbol of Chinese culture represents success and being destined for a great future. Cherry Blossom is Japan's national flower, but also abundant across China. In Japan it represents the ephemeral nature of life and in China, it is a symbol of both power and feminine strength.

FÁNRÓNG

Fánróng is based on the Chinese symbol for Happiness and Long Life. Travel through China today and you'll still see countless symbols of this kind everywhere. Not surprisingly, given what it stands for, this symbol is among the most widespread.

KANEI

KanEi is inspired by the mon, Japan's currency during the Kan-Ei period (1624-1644). The mould's layered concentric circles and arches symbolize waves and the flow of good fortune.

Cheers to mysterious encounters

Libbey designs and manufactures glassware that celebrates versatility and withstands the rigors of the foodservice environment all at once.

Tumblers are a foundation to serve up anything from chilled, infused water to trending beverages, such as kombucha, nitro coffee, and healthy juices and smoothies. When served with your creative embellishments, this glassware is easily transformed into eye-catching beverage presentations that translate into greater returns for you.

When time and space is tight, glasses get stacked – whether they're designed to or not. That's why Libbey offers several options designed for consistent, durable stacking – delivering performance with flair and looking just as good stacked on the bar as they do on their own.

AETHER

AETHER

The Aether range interprets the unique textures created by Nature's eternal evolution as manifested in the simple beauty found in the raw materials of rock, wood and water, and the natural phenomenon of cracked dry soil in a thirsty landscape.

The bold, distinctive design of the Aether range builds on a simple plunger pattern to create a sense of tranquility and pure, unadorned nature that so many seek as an escape from today's high-speed world.

NEWTON

DIVERGENCE

Divergence is a concept developed for the first edition of Libbey's Glassology contest by Belgian designer, Dries Vanlerberghe.

Convinced that ergonomics are key to a perfect design, Dries created a glass that feels right in your hand, while honoring one of the greatest glass forms: the old-fashioned. Why the old-fashioned? Dries loves its ability to combine elegance with robustness and delicacy with tactile presence. The result was Divergence, a glass with two distinct elements. On the one hand, the physicality and geometric forms of Cubism. On the other, a polished upper-half lifting our eyes to the rim of the glass, just as the Big Apple's Deco buildings lift our eyes skyward.

It's a glass that invites you to grasp it and bring it to your lips. Its design might be based on a Divergence of two styles, but fill it with the right drink and everything converges into a truly satisfying sensory experience.

DELICATE**ONE-PIECE TOUGH**

One-piece stemware is one of Libbey's best selling stemware products for good reason. It is specifically designed for high-turnover, fast-paced restaurant operations where safety and durability are of utmost importance.

One-piece stemware is inherently stronger than other stemware. Formed from one piece of glass, there are no weak points where stem and/or foot are joined with bowls. Libbey's precision burners produce a rim with a minimum bead and a rounded foot that is more resistant to unsightly chipping. The glass is also designed to be thicker at the contact points for added strength needed in rigorous handling. Longer product life means more savings and more profit per serving for operators. In fact, your investment starts paying back profits after just one serving. And Libbey feels so strongly about one-piece construction, it has backed it with the exclusive Safedge® Rim and Foot guarantee.

One-piece stemware strikes the perfect balance of weight, functionality, and aesthetics. It's the proven leader in the industry for durability and reliability.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

ROYAL LEERDAM STEMWARE

Royal Leerdam stands for a powerful combination of elegant design and functional details. As a leading designer and manufacturer of stemware, Royal Leerdam offers a unique range of glass collections for the middle and high-end hospitality market.

With a proud history spanning over almost 140 years, Royal Leerdam is known for its attention to detail and exquisite design. Elegant design contributes to a sense of quality and adds value to the overall image of restaurant and catering establishments. Royal Leerdam is deeply committed to delivering perfect designs that will meet the needs of the hospitality industry; glassware products that combine elegance with highly functional qualities.

With the traditional craftsmanship of its glass factory, a team of top designers, its royal status and its extensive experience, Royal Leerdam is truly a brand to be proud of. We will be happy to share the power of this trusted and authentic brand with you. Royal Leerdam offers you the products and service to empower your business.

VANGUARD

The tulip-shaped design is a must-have for those who wish to offer a complete range of wine glasses.

We have therefore carefully selected our Vanguard series to be a new winner in this fine dining segment. It will be appreciated by wine lovers who care for extravagant, tall & slender design that simultaneously enables them to even better enjoy the wine aroma's and taste.

While the 125mm tall stem gives the Vanguard family a true presence and, the graciously curved bowls ensure the glasses do not dominate your table setting.

MAGNA

MAGNA

As we live in a world that becomes more complicated every day, we look for simpler and pure designs when we take a moment to relax.

We have selected Magna as a new standard in contemporary, minimalist and energetic design for an all-day winner wine glass. The range suits high pace service due to its sturdiness and durability.

The largest capacity in the range ideally suits Spritzer with Aperol and Campari or Easy-Mixer drinks which are increasingly popular. The wide opening facilitates in glass mixing and topping the mix with ice.

DOYENNE

DOYENNE

When we introduced Carré in 2003, its angled shape quickly became a best-seller around the world, which it still is today.

In 2019, with Doyenne we created a new design that is believed to be the next generation.

It has an even higher angled bowl and a slim 6 mm stem for an extra touch of both modern and luxury design. Due to our craftsmanship and engineering we were able to produce a slender stem that equals our other foodservice wine ranges in terms of strength.

GRAN VINO

Gran Vino follows in the footsteps of the successful l'Esprit du Vin and Bouquet collections. The tulip-shaped bowl, tapered in at the top, gives the wine room to breathe and concentrates the aromas to enhance the taste experience. Lightweight and stable, Gran Vino is perfect for tray service as well.

Designed to withstand the rigours of intensive use, Claret is an unpretentious, functional range that will suit any high-volume catering service. The Claret range has a lovely, classical appeal, and the shorter stem and strong bowl provide the stability you need to feel at ease with a tray full of glasses. While the bowl shape increases the number of glasses you can pour from a bottle, customers will be surprised by your generosity.

PLAZA
PACKAGING

The Plaza collection offers three types of glasses; all-purpose, balloon-shaped and XXL glasses. These generously sized glasses are perfect for any situation. The wide bowl enhances the wine's best characteristics. While the smaller bowl shape increases the number of glasses you can pour from a bottle, customers will be surprised by your generosity. Whether by the glass or by the bottle, Plaza is best for middle- to high-end casual and fine dining.

PLAZA

L'ESPRIT DU VIN

For the l'Esprit du Vin collection, renowned designer Siem van der Marel worked in close cooperation with a sommelier and a wine association to design a unique 32 cl glass. The bowl shape allows for gentle swirling to reveal the bouquet of both red and white wines. The l'Esprit du Vin collection can be used for both wine by the bottle and by the glass servings.

BOUQUET
PACKAGING

The beauty of the sleek design has proven its functionality in the past decades. The Bouquet collection was designed by Floris Meijdam, a famous designer who developed several popular ranges for Royal Leerdam. Bouquet is one of Royal Leerdam's evergreens, a complete range of glasses. This range is suitable for intensive and professional use, banqueting and large-scale catering projects.

These handcrafted carafes are designed to optimally develop the notes and tastes of different types of wine. We recommend using the Femme carafe for complex, young, fruity, and full-bodied wines. Carafe Homme is suitable for both red and white grape varieties.

Use the Roc element to keep wine in the carafes at the right temperature. The Roc stone base is reversible to fit both the Homme and Femme carafes, and can be used as a cooling as well as a warming element.

COCKTAILS

Signature drinks demand signature glasses. Using the right glass to showcase all your craft spirits or exclusive recipes creates the most memorable impression possible in taste, appearance and perceived value. Create buzz around your cocktail menu by elevating presentations that command premium price. Big reaction preparations, glamorous cocktail displays and locally crafted vibes, Libbey has it all right here for you.

Unique designs inspire your creativity, reflect trend insights and celebrate your bottom line. From standard rocks to luxury stemware, Libbey offers a comprehensive selection of cocktail glassware to set your beverage menu apart.

MODERN AMERICA

The Modern America range is a revival of the company's historical 'Modern America' range, inspired by America's first fine handcrafted glass. Libbey has reinvented this iconic range to meet the demands of today's customers. These tumblers are ideal for all types of drinks (except hot drinks).

MODERN AMERICA

MODERN AMERICA

The Modern America stemware range comes in five different shapes: the Coupe, Cocktail, Nick & Nora, Gin Tonic and Martini. The tall & bold stem along with the sturdy foot portray the Art Deco Buildings (Empire State Building and Chrysler Building) which have become unmissable landmarks in New York City. The sleek and curvaceous silhouette of the bowl make these glasses the perfect choice when serving and sipping exquisite liquors, wines and cocktails.

VINTAGE

SWAY

Sway is a graceful yet striking coupe. It evokes an era of bygone elegance, with echoes of Art Deco in the curved lines and polished finish.

The waves in the form give a sense of rippling motion which creates a unique and very powerful effect. While the rounded rim provides an almost sensuous contact with the lips that lingers and deepens the drinking experience.

THE GATS

The Gats was the winning concept of the second edition of the Glassology Design Contest. Creator Yochen Verbeeck from Belgium enchanted the judges with his great story and beautiful creation.

The Gats was inspired by three different sources. First of all the golden age of Art Deco – seen in the smooth, curved lines and polished surface. But Yochen was also inspired by "The Great Gatsby", F. Scott Fitzgerald's landmark novel set in the glamourous Roaring Twenties in New York – captured in the elegant and stylish details: mysterious and understated, just like Gatsby, the novel's hero. A third source of inspiration came from a vase that was always filled with fresh flowers in the house of Yochen's grandmother.

CARATS

RADIANT

The brilliantly cut star, the wide diamond cut band that frames the pattern, the thickness of the glass and its elegant looks: everything about Radiant says Vintage.

Besides a D.O.F. and a Cooler, which makes Radiant ideal for a wide variety of beverages, the range has been extended with a decanter. The decanter with glass stopper shows the same star pattern and radiates the complete range of prismatic colors across any room. The decanter is very suitable for whiskey, but can also be used for many types of alcohol, such as vodka, gin, rum, tequila or bourbon.

KAHIKO

KAHIKO

The legendary Tiki bartender, Daniele Dalla Pola, helped us develop the iconic Kahiko decorations to reflect the rich traditions and culture of the Pacific Islands.

Kahiko Mai Tai draws on the traditional TAPA patterns of islands like Tonga, Samoa and Fiji where it's seen on everything from cloths to traditional tattoos.

Kahiko Zombie plays that typical two-faced Tiki trick with a sensuous, ukulele-playing wahine on one side and a scary shrunken head on the other. But however you look at it, it's the perfect way to serve a cocktail filled with Pacific promise.

BESPOKE

BESPOKE

Bespoke means 'specially designed for you'. Libbey designed the Bespoke range for sophisticated surroundings looking to create the ultimate and refined drinking experience. The long and thin stem, coupled with its large footplate and Finesse Laser cut rim, create an imposing yet understated presence, giving that premium feel to every environment.

LEVITAS

With Levitas, Libbey offers you a range of glassware in it's purest form. The simple yet elegant bowls sit atop a short stem to make an impact on whichever drink you choose to serve in them.

All Levitas items feature our Finesse Laser Cut Rim Finish, an after process which results in a very fine polished rim.

Levitatis fits a trend spotted among the leading cocktail bars around the world. Producers of spirits, syrups and mixers continuously push themselves to create the purest of products. The bartenders mixing these into carefully crafted cocktails achieve delicate flavour balances often finished with a simple garnish or served on hand cut clear ice blocks. Levitas is the ultimate vessel.

MARTINI
PACKAGING

There is no reason why you should limit the use of these glasses to the drinks they are named after. The martini and margarita glasses are equally suitable for nice appetizers and desserts. It is up to you! Specials is a collection that was specially designed for professional use in any food service area that serves special drinks, appetizers or desserts, and will elegantly complement any of our wine glass collections.

ESPERANTO

ESPERANTO

With the Esperanto range Libbey introduces a product family which centres on the words easy and universal.

The family sits on a short stem, raising not only your beverage services but your presentations too. In addition the short stem makes the glasses easy to use in foodservice handling and serving. It's wide diameters facilitate adding ice and make them easy to clean.

The smaller capacities lend themselves for spirits and liquors as well as a side water glass. The intermediate capacities suit a wide range of wines, fortified wines and soda serves. Beers and cocktails are right at home in the middle to high capacities.

INFINIUM

PREMIUM PLASTIC DRINKWARE

With today's increasingly casual and outdoor dining environments, Infinium® premium plastic drinkware and serveware lets you bring an upscale, trendy vibe just about anywhere – helping you find new profitable opportunities in every corner of your property.

Made of 100% BPA-free Tritan™ copolyester, Infinium combines glass-like beauty, virtually unbreakable design and lighter weight that's easier for your staff to carry.

All Infinium products are engineered to maintain their glass-like brilliance even after extensive usage – ideal for demanding outdoor and high-volume environments.

FEATURES

INDUSTRY-LEADING RESISTANCE
Resists virtually all stains, odors and tainting of beverage flavor.

DISHWASHER DURABLE
Maintains a "like new" appearance even after hundreds of cycles.

TEMPERATURE RESILIENCE
Withstands extreme temperatures from boiling to freezing

Prolonged exposure to sunscreens at elevated temperatures can cause a cloudy layer to form on the surface of the plasticware. Citrus drinks not recommended as high acidity may damage the product. Dishwasher safe, not recommended for use in microwave.

*Cheers to
beer lovers*

BEERS

The craft beer culture continues to drive the demand for diverse selection at the bar. Deliver the full-bodied flavors and authentic presentations the craft community craves. One key ingredient is required – differentiation. Having the right vessel for the right beer is good for business and improves each beer's taste, aroma and aesthetic – enhancing perceived value and customer satisfaction while driving a strong profit per serving.

PROST

ARÔME

The Arôme range has been extended also to the beer segment. The convex shape of the bowl has been carefully designed to allow the aromatic complexity of any beer to stand out and its narrower opening helps to concentrate the foam on the top of the glass.

AnDer Beer glass is the best beer tasting glass for brewers, crafted beer producers and beer aficionados. It's a co-creation by Royal Leerdam, Derek Walsh (beer consultant) and André Köppen (beer sommelier). The smaller capacity is suitable for professional tastings and small serves, where the other two glasses offer a full bottle size. AnDer enhances the flavors and aromas of any type of beer you use it for, such as Lagers, Wheat Beers, IPAs, and craft beers in general.

During Lisbon Bar Show 2016, Robert Schinkel from The Netherlands has been named the winner of the first Glassology by Libbey Design Contest. The inspiration for Schinkel's design comes from the tulip. In the Golden Age, this flower was one of the most expensive products on the market. This period of time wasn't just a Golden Age for the Dutch, but also for punch. British sailors who traveled from East to West made this drink on the basis of rum and the herbs and ingredients to which they had access to. They brought the recipe back to Great-Britain, where punch became a popular drink. Schinkel chose this drink to be the perfect match for his tulip shaped glass design.

GLASS HANDLING TIPS

WHY GLASSWARE BREAKS

Glassware is one of the most important tools used in the hospitality industry. It is also one of the hardest materials around, yet under certain conditions it can also be fragile. The number one reason for glass breakage is improper handling. This guide presents you and your staff with insights into how to minimize breakage through proper handling of your glassware. By applying these tips you can save 20-30% on glassware costs.

TOP 3 REASONS WHY GLASSWARE BREAK

- Stacking glasses which are not designed to be stacked can cause chipping.
- Thermal shock when ice is added to a glass that has not reached room temperature after washing.
- Mechanical shock caused by minute abrasions from contact with foreign objects such as cutlery and muddlers.

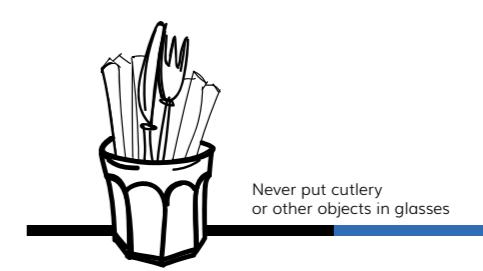

THERMAL SHOCK

Glass holds temperature, and a rapid change in temperature can cause enough stress to result in breakage. The main moments when thermal shock loss can occur are in the dishwashing cycle and when preparing drinks. To minimize loss always allow glasses to reach room temperature before and after they are washed and pre heat glasses that will hold hot beverages.

MECHANICAL SHOCK

Mechanical shock in glassware is the direct result of contact with another object, such as a spoon, a beer tap, another glass, or a piece of china. This kind of contact can cause a minute abrasion, invisible to the eye, but a source of weakness in the glass, making it more susceptible to breakage from impact or thermal shock.

Glassology

L LIBBEY

The Glassology Contest challenges professionals working in the Drinks Industry, to develop, create and offer the ultimate drinking experience for high-level guests. They are given the opportunity to create their ultimate glassware design that will lift a reinvented cocktail, their newest boozy creation or just a cup of coffee to a whole new level.

The winner earns global recognition, as the winning glass design is taken into production to be sold all over the globe by Libbey. The winner also has the honour to name the glass, receives free pieces of the winning design and is one of the members of the jury in the next Glassology Design Contest. Last but not least the winner also acts as the Glassology ambassador at the renowned Tales of the Cocktail in New Orleans.

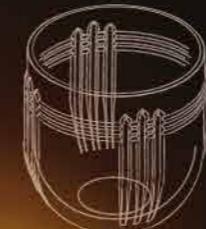

Winner 2016
On the 17th of May, during Lisbon Bar Show 2016, Robert Schinkel from The Netherlands was named the winner of the first Glassology design contest with his Tulip Punch Bowl.

Winner 2018
With his art deco design called 'The Gatsby' Jochen Verbeeck was crowned the winner of the second Glassology Design Contest held at The Perfect Serve Bar show. Former winner Robert Schinkel handed over the trophy.
